

MSc / PG Dip in Personalised Nutrition

This innovative programme started in January 2012 and has attracted considerable global interest from many health professionals including doctors, pharmacists, nurses, psychologists, practicing nutritionists and nutritional and complementary therapists. Non-bioscience degree qualified applicants with science degrees are also registering for this course. If you think you might be eligible for this course based on your prior qualifications then please contact us.

Course Overview

The MSc / PG Dip in Personalised Nutrition, validated by Middlesex University, aims to deliver an intellectually stimulating and rigorous advanced programme of study that directly supports the development of an evidence base for a personalised nutrition approach to healthcare, as well as promoting lifelong learning and career opportunities for graduates of this course. The Institute for Functional Medicine (IFM) founded in 1990 and led by bio-scientists and medical doctors has collaborated with CNELM to enable students on this course to access lectures from many IFM leaders in the field.

Course Length & Study Options

- MSc: 1 year full-time; 1.5-3 years part-time (distance learning or distance learning with optional attendance)
- PG Dip: 10 months full-time; 2 years part-time (distance learning or distance learning with optional attendance)

Course Outline

- MSc students take 4 x 30 credit modules + the Research Dissertation (total: 180 credits)
- Postgraduate Diploma (PG Dip) students take 4 x 30 credit modules (total: 120 credits)
- Students that complete 60 credits from either the MSc or PG Dip are eligible for a Postgraduate Certificate (PG Cert) as an Exit award

Module	Credits	MSc (180 credits)	PG Dip (120 credits)	PG Cert (60 credits)
Evidence Based Personalised Healthcare	30	M	M	
Research Dissertation	60	M		
Personalised Nutrition Requirements	30	NN	NN	NN
Personalised Nutrition & Chronic Illness	30	NN, P	NN, P	
Personalised Nutrition & Longevity	30	NN, P	NN, P	
Personalised Sports Nutrition	30			

M: Mandatory

NN: Mandatory module for those without a nutrition background/prior nutrition qualification

P: Mandatory for those who are taking the MSc or PG Dip in combination with the CNELM Nutritional Therapy Practice Diploma as an accredited route to practice.

NB those who wish to qualify as a nutritional therapist will need to take the CNELM Nutritional Therapy Practice Diploma in combination with the MSc or PG Dip in Personalised Nutrition (full details in the Prospectus downloadable from www.cnelm.co.uk).

Entry Requirements

- A first science degree is the primary entrance requirement, though applicants with other degree or professional qualifications will be considered on an individual application basis.
- All applicants must demonstrate appropriate and underpinning knowledge of chemistry, human biology, physiology and biochemistry. Depending on your unique education background you might be advised to take some or all of the postgraduate Bioscience Entry Course modules.
- Proficiency in English Language IELTS 6.5 or TOEFL equivalent
- Basic computer skills including word processing, internet browsing and use of email

Why CNELM?

CNELM has been teaching validated nutrition degree courses since 2003 and accredited postgraduate nutrition courses since 2006. We are at the forefront of new developments in personalised nutrition education and e-learning and we are committed to the development of evidence-based nutritional research. All of our nutrition courses are taught from the Systems Biology approach inclusive of functional medicine and other emerging healthcare paradigms.
